

REFERENCE LETTER

Good afternoon,

Please see reference letter below from one of our happy customers!

I'm writing with excitement to rave about my recent experience with AOT Recreation, a playground equipment company that completely transformed our play area into a vibrant, kid-magnet wonderland!

Whether you're a school board member, parks & rec guru, or a maintenance manager like me wanting the best for your community members, AOT Recreation deserves top billing. Here's why:

Ease of Use: From the very first phone call, AOT Recreation felt like a breath of fresh air. Their team is incredibly knowledgeable, patient, and super helpful. They listened to our needs, understood our budget, and offered creative suggestions we hadn't even considered. The whole process, from design to installation, was smooth and stress-free.

Price Point Perfection: Let's face it, budgets are tight, especially when it comes to children's things. AOT Recreation gets it. They offered competitive prices without sacrificing quality, and even helped us find ways to stretch our budget further without compromising on safety or fun. We got the most bang for our buck, hands down!

Playground Powerhouse: The final result? Jaw-dropping awesome! AOT Recreation brought our vision to life with top-notch equipment that's both exciting and age-appropriate. Sturdy climbing structures, thrilling slides, imaginative playhouses – the kids haven't stopped exploring (and shrieking with delight) since it went up.

If you're looking for a playground equipment company that prioritizes ease, affordability, and pure kid-tastic satisfaction, AOT Recreation is your answer. They exceeded our expectations on every level and turned our playground into a place where laughter and imagination run wild.

Do yourself (and your children!) a favor. Give AOT Recreation a call – you won't regret it!

Warmly,

Mark McLean
